

MOVING FORWARD INTERNATIONAL

SATURDAY 5th NOVEMBER 2022

SSO#8 presents in association with Sonic Street Technologies

UK SOUND SYSTEM REASONING DAY

SSO#8: UK Sound System Reasoning Day brings together sound system operators from around the UK and across different generations to celebrate and exchange knowledge. Through four reasoning sessions, we will learn how different practitioners started their sound systems; their approach to their practice and why; and how various political and social situations have influenced their sound system approach. How and why is the culture transforming, or being passed down and preserved, or being gatekept, or appropriated? What are the responsibilities of youngers and veterans? What does the future hold?

We will also explore how broader cultural landscapes and technological changes inform practitioners' experiences. Indeed, is the traditional definition of a sound system still fitting, given technological and media platform changes in sound systems' social and musical functions?

**Professor Stuart Hall Building - Goldsmiths, University of London
80 Lewisham Way, New Cross, London SE14 6NW**

UK SOUND SYSTEM

REASONING DAY

SATURDAY 5th NOVEMBER 2022

Sound System Outernational is an ongoing initiative of practitioners and researchers, in association with **Goldsmiths, University of London**, dedicated to recognizing, stimulating and supporting sound system culture worldwide. Since 2016 Sound System Outernational has created spaces for dance and discussion by organizing events and curating publications to bring together practitioners and researchers of sound system culture worldwide, fostering intergenerational conversations to strengthen the culture and to explore its technologies, aesthetics and politics.

The **SSO#8 organizing** committee is Natalie Hyacinth, David Katz, Mandeep Samra, June Reid, and Christine Hannigan.

 **@soundssystemouternational**

The partner organization for SSO#8 is **Sonic Street Technologies (SST)**. SST is an ERC-funded research project launched in 2021 examining the culture, diaspora and knowledge of subaltern and Global South uses of sound technologies.

Don't forget to add your sound system to the SST Sonic Map, please do so via this link: <https://sonic-street-technologies.com/sstmap/>.

We will also have an iPad on the day for the same purpose.
